Oasis Infobyte

June 2024 to July 2024

- Developed and maintained web projects using React, MongoDB, HTML, CSS, Bootstrap, Node.js and Express.js.
- Optimized database queries to improve performance and scalability.
- Collaborated with cross-functional teams to define, design, and ship new features.
- Used version control systems like Git to manage codebase and collaboration.
- Conducted code reviews and provided constructive feedback to team members.

Web Developer Internship

StartHere.in

June 2024 to June 2024

- Developed and maintained web projects using React, MongoDB, HTML, CSS.
- Optimized database queries to improve performance and scalability.
- Collaborated with cross-functional teams to define, design, and ship new features.

- Used version control systems like Git to manage codebase and collaboration.
- Conducted code reviews and provided constructive feedback to team members.

Education

Bachelor of Science in Computer Science

IMS Engineering College, Ghaziabad

June 2025

- Relevant Coursework: Data Structures, Database Management, Web Development

Certifications

- CIT(Common Internship Test) Certificate, issued by Internship Studio, July 2024.
- Letter of Recommendation Certificate, issued by StartHere, June 2024.
- Internship completion Certificate, issued by StartHere, June 2024.
- Basics Programming Certificate, issued by Great Learning, April 2024.
- Automation Developer, issued by UiPath, March 2024.
- Softskill Certificate, issued by TPC Global, June 2023.

Projects

Weather APP

- Build a Weather App using HTML, CSS, JavaScript and public using API.
- Developed a responsive weather application using React.js for the frontend and a public weather API for real-time data retrieval. The app allows users to search for current weather conditions by city name, displaying detailed weather information including temperature, humidity, wind speed, and weather condition.

Flappy Bird

- Built a Flappy Bird 2D Game using Python.
- Flappy Bird is a side scrolling game, like the popular game Super Mario Brothers, where the player controls a bird in a 2D environment.

Event Management

- Built a event management website using HTML, CSS, JavaScript and PHP.
- Features included user registration, planning, organizing and executing various Event and manage functionality.

Additional Information

- **Languages:** English (Intermediate), Hindi
- **Interests:** Full Stack Development, Web Designing, Backend Development.
